

Guillermo Aladro Abad

EDUCATION

Universidad Politécnica of Madrid
Communications Systems Engineer

Madrid, Spain
2020 - 2026

- **University Treasurer:** Managing budgets for 15 sports organizations
- **Recommendation Letter** from Microprocessors Coordinator Professor

*** International Experience**

Corbett Preparatory School of IDS
Huntington School District
Alpadia Technical and Language Program

Florida, USA
Oregon, USA
Cologne, Germany

Samsung Innovation Campus (UPV · UPM · UMA)
Generative AI & Python Programming (Master Course)

Madrid, Spain
2026

- **Generative AI:** LLMs and code/image/video generation models, prompt engineering (basic & advanced), foundation models and platforms, AI ethics and responsible-AI risk management.
- **Python & OOP:** control flow, sequence data types, functions, recursion, lambdas, closures and classes.
- **Data Structures & Algorithms:** stacks, queues, hash tables, linear/binary search, sorting (bubble, selection, insertion, merge, quick), greedy, divide-and-conquer, dynamic programming and backtracking.
- **Data Science & Visualization:** NumPy, Pandas (Series & DataFrames), data tidying, time-series, descriptive statistics, dashboards with Streamlit, plus a GenAI capstone project.

WORK EXPERIENCE

Entrepreneurship

Founder & Operations Manager — Independent Venture

Madrid, Spain — Jan 2023 - Present

- Identified high-traffic locations and negotiated revenue-share contracts with hospitality business owners.
- Responsible for the hardware upkeep, electronic troubleshooting, and payment system calibration of recreational machinery.
- Managed P&L statements, calculated ROI for new assets, and optimized monthly logistics.
- Scaled the operation from a single unit to multiple locations by analyzing market demand and competitor placement.

Skills: Strategic Growth, Financial Management, Technical Maintenance, B2B Negotiation

Projects

- Technical and personal engineering projects available at:
<https://github.com/GuillermoAladro/CurrentProjectsGuillermoAladro/issues>

Hotel Riu Berlin

Operations Support — RIU Hotel, Berlin

Berlin, Germany — Jul 2022 - Sept 2022

- Optimized workflow in a high-throughput service operation.
- Ensured quality and consistency under strict time constraints.
- Collaborated in multicultural teams and handled customer issues efficiently.

SKILLS, ACTIVITIES & INTERESTS

Languages: Spanish: Native | **English:** Professional | **German:** Basic

Volunteering Activities: MD Anderson Cancer Center

2023 - 2024

Skills:

- **Software / Simulation:** Matlab, Simulink, FEKO, AWR.
- **Programming Languages:** Java, C, C++, **Python (advanced — OOP, algorithms, data structures)**, VHDL, Altium.
- **AI & Data Science:** Generative AI, Prompt Engineering, Foundation Models / LLMs, AI Ethics, NumPy, Pandas, Streamlit, data visualization.
- **Tools:** Microsoft Office (Advanced Excel), GNU Octave, ModelSim.
